"THE DEBUTANTE,"

An Excellent Performance and Pleased Andlence. Rarely has Ford's Opera-House contained such a large audience of such extreme respeciability as the one that congregated las evening to witness the first performance o Messrs. Riddle & Smith's new comic opera, "The Debutante." The performance was a "The Debutante." The performance was a most gratifying success. The many clover hits of the libretto kept the gathering in almost constant langhter. Not only the young and frivolous langhed, but gray-haired judges, staid diplomate and voterans of the army and navy shook their sides. The hits all told, and none enjoyed them more than the parties struck. Owing to the numerous encores the opera had to be considerably out. In future, encores should not be permitted, and the entire opera should be given. The following was the cast:

Mr. John P. Sonsa was musical director, and S. W. Keen, stage manager. What faults were noticed in the performance were those that generally attend an initial performance. They will be less noticeable this evening when the opera is repeated. Miss Goode, Miss Roselle, Miss Cotteril and Messrs, Riddle, Stevens, Sprigg and Nelson acquitted themselves admirably. Miss Goode was repeatedly encored. Her voice is sweet and strong. Miss Roselle looked her character to perfection, being stately, graceful and snave like a typical leader of the "Ton." Her voice, which is clear and full, is well suited to the music she sang. Mr. Sprigg, although suffering frem sore throat, sang with credit. At the end of the first set the principals were showered with flowers and the authors called out.

A Remarkable Cure of a Horse.

In the fail of 1883 I had a valuable horse taken with the plakeye, resulting in blood police. After sine means of decouring with all the remedies to be found in horse begas, I despaired of a cure. His right hind leg was awarge as a man's body, and had on it over 40 running sories. He was a most pittable-bosing object. At least thought of swiff's Specific, and commenced to use it. I used fifteen bottles. In August last all symptoms of the disection disappeared. There have been no signs of a freturn, and the horse has done a male's work on my farm ever sloce.

January 9, 1886.

Built's Specific is cottrelly vegetable. Treatise on Blood and Sain Diseases mailed free.
